PROFILE INFO

Recent computer science student majoring in software engineering, with a passion for innovation and a strong academic record, seeking an internship to apply my skills and knowledge to solve real-world problems.

EDUCATION

③ Bachelor of Software Engineering with Honours

University Sains Malaysia (2023 - Current)

- **CGPA:** 3.09

③ Mariculation

Kolej Matrikulasi Pahang (2022 - 2023)

- **CGPA:** 4.0
- **Muet:** Band 4

③ Sijil Pelajaran Malaysia (2017 -2021)

SMK Mengkarak

Result: 6A's 1B 3C's

PROJECT

③ CafeConnect@USM – Smart Campus Café Management System

- Developed a centralized platform for campus cafés with real-time menus, pre-orders, reviews, job listings, and notifications.
- Students & Staff: Access real-time café availability, menus, food stock, pre-orders, reviews, and food recommendations.
- Café Operators: Update menus, manage operating hours, track orders, post part-time jobs, and respond to feedback.
- Administrators: Oversee users, cafés, orders, reviews, notifications, and sustainability-related content.
- Features & Tech: Real-time system, pre-ordering, reviews, job portal, notifications; PHP, JavaScript, HTML, CSS, MySQL / Java.

③ APSR (AI-Powered Salesperson Royalty System

- Developed an AI-powered sales attribution and commission system integrating marketplaces and chat-based selling, with automated commission lifecycle.
- Salespersons: Generate referral links/QR, track sales & commissions, request payouts.
- Admin/Finance: Manage products & salespeople, approve QR orders, process payouts, handle disputes & audit logs.
- System: Multi-channel attribution (marketplace + chat tokens), automated commission lifecycle (pending→paid→reversed), reconciliation & fraud/risk alerts.
- Tech: Web app, DB (MongoDB), cloud; React / Node.js.

➤ **ReCarNation – Second-Hand Car E-Commerce Platform**

- Developed a second-hand car e-commerce web application with role-based access for users, sellers, and administrators.
- Implemented car browsing & filtering, test-drive booking, purchase management, and secure authentication.
- Built responsive UI using ReactJS, Tailwind CSS, Vite and backend services with Java Servlets on Apache Tomcat.

WORK EXPERIENCE

➤ **Cashier, AEON Desa Park City (April 2022 - July 2022)**

- Operated point-of-sale (POS) systems efficiently to process cash, credit, and digital payments, ensuring accurate transactions.
- Provided excellent customer service, addressing inquiries and resolving issues promptly to enhance the shopping experience.
- Managed daily cash registers, reconciled receipts, and maintained accurate financial records.

ACTIVITIES / LEADERSHIP
